Product Datasheet

Sheep GC(Glucagon) ELISA Kit EBT-ELK0152

Article Name	Sheep GC(Glucagon) ELISA Kit
Biozol Catalog Number	EBT-ELK0152
Supplier Catalog Number	ELK0152
Alternative Catalog Number	EBT-ELK0152-96, EBT-ELK0152-48, EBT-ELK0152-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Sheep
Concentration	2000 pg/mL
Range	31.25-2000 pg/mL
Sensitivity	12.7 pg/mL
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Endocrinology,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Sheep GC. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Sheep GC. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Sheep GC in the samples is then determined by comparing the OD of the samples to the standard curve
