EasyStep Mouse FE(Ferritin) ELISA Kit EBT-ELK018ES

Article Name	EasyStep Mouse FE(Ferritin) ELISA Kit
Biozol Catalog Number	EBT-ELK018ES
Supplier Catalog Number	ELK018ES
Alternative Catalog Number	EBT-ELK018ES-96, EBT-ELK018ES-48, EBT-ELK018ES-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	40 ng/mL
Range	0.63-40 ng/mL
Sensitivity	6.4 pg/mL
Samples	Serum

Application Notes

Assay Type: Sandwich. Assay length: 1.5h. Research Area: Metabolic pathway, Tumor immunity, Hematology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse FE, and the Mouse FE standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Mouse FE. After TMB substrate solution is added, only those wells that contain Mouse FE and HRP-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse FE in the samples is then determined by comparing the OD of the samples to the standard curve
