Product Datasheet

Human EIF4E2(Eukaryotic Translation Initiation Factor 4E Type 2) ELISA Kit EBT-ELK0281

Article Name	Human EIF4E2(Eukaryotic Translation Initiation Factor 4E Type 2) ELISA Kit
Biozol Catalog Number	EBT-ELK0281
Supplier Catalog Number	ELK0281
Alternative Catalog Number	EBT-ELK0281-96, EBT-ELK0281-48, EBT-ELK0281-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	2000 pg/mL
Range	31.25-2000 pg/mL
Sensitivity	11.9 pg/mL
UniProt	O60573
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Breast Cancer. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human EIF4E2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human EIF4E2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human EIF4E2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human EIF4E2 in the samples is then determined by comparing the OD of the samples to the standard curve
