Product Datasheet

Human SLC39A13(Zinc transporter ZIP13) ELISA Kit EBT-ELK0340

Article Name	Human SLC39A13(Zinc transporter ZIP13) ELISA Kit
Biozol Catalog Number	EBT-ELK0340
Supplier Catalog Number	ELK0340
Alternative Catalog Number	EBT-ELK0340-96, EBT-ELK0340-48, EBT-ELK0340-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.071 ng/mL
UniProt	Q96H72
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway, Infection immunity, Hematology, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human SLC39A13. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human SLC39A13. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human SLC39A13, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human SLC39A13 in the samples is then determined by comparing the OD of the samples to the standard curve
