Human BCAT2(Branched-chain-amino-acid aminotransferase, mitochondrial) ELISA Kit EBT-ELK0348

Article Name	Human BCAT2(Branched-chain-amino-acid aminotransferase, mitochondrial) ELISA Kit
Biozol Catalog Number	EBT-ELK0348
Supplier Catalog Number	ELK0348
Alternative Catalog Number	EBT-ELK0348-96, EBT-ELK0348-48, EBT-ELK0348-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	3000 pg/mL
Range	46.88-3000 pg/mL
Sensitivity	12.8 pg/mL
UniProt	O15382
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction, Metabolic pathway. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human BCAT2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human BCAT2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human BCAT2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human BCAT2 in the samples is then determined by comparing the OD of the samples to the standard curve</p>
