Product Datasheet

Rat TAN1(Translocation Associated Notch Homolog 1) ELISA Kit EBT-ELK0436

Article Name	Rat TAN1(Translocation Associated Notch Homolog 1) ELISA Kit
Biozol Catalog Number	EBT-ELK0436
Supplier Catalog Number	ELK0436
Alternative Catalog Number	EBT-ELK0436-96, EBT-ELK0436-48, EBT-ELK0436-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.046 ng/mL
Samples	tissue homogenates, cell lysates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Immune molecule,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat TAN1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat TAN1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat TAN1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat TAN1 in the samples is then determined by comparing the OD of the samples to the standard curve
