Product Datasheet

Cat ITGb1(Integrin Beta 1) ELISA Kit EBT-ELK0536

Article Name	Cat ITGb1(Integrin Beta 1) ELISA Kit
Biozol Catalog Number	EBT-ELK0536
Supplier Catalog Number	ELK0536
Alternative Catalog Number	EBT-ELK0536-96, EBT-ELK0536-48, EBT-ELK0536-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Feline
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.17 ng/mL
UniProt	P53713
Samples	Tissue homogenates, cell lysates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: CD & Adhesion molecule, Tumor immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cat ITGb1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cat ITGb1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cat ITGb1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Cat ITGb1 in the samples is then determined by comparing the OD of the samples to the standard curve
