Product Datasheet

EasyStep Human RBP(Retinol Binding Protein) ELISA Kit EBT-ELK060ES

Article Name	EasyStep Human RBP(Retinol Binding Protein) ELISA Kit
Biozol Catalog Number	EBT-ELK060ES
Supplier Catalog Number	ELK060ES
Alternative Catalog Number	EBT-ELK060ES-96, EBT-ELK060ES-48, EBT-ELK060ES-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	100 ng/mL
Range	1.56-100 ng/mL
Sensitivity	0.34 ng/mL
Samples	Serum, plasma

Application Notes

Assay Type: Sandwich. Assay length: 1.5h. Research Area: Cancer, Diabetes Research, Lipid and Metabolism. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human RBP, and the Human RBP standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Human RBP. After TMB substrate solution is added, only those wells that contain Human RBP and HRP-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human RBP in the samples is then determined by comparing the OD of the samples to the standard curve
