## Product Datasheet

### Horse OMT(Omentin) ELISA Kit EBT-ELK0633

Article Name	Horse OMT(Omentin) ELISA Kit
Biozol Catalog Number	EBT-ELK0633
Supplier Catalog Number	ELK0633
Alternative Catalog Number	EBT-ELK0633-96, EBT-ELK0633-48, EBT-ELK0633-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Equine
Concentration	100 ng/mL
Range	1.56-100 ng/mL
Sensitivity	0.71 ng/mL
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Horse OMT. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Horse OMT. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Horse OMT, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Horse OMT in the samples is then determined by comparing the OD of the samples to the standard curve
