Product Datasheet

Simian Testo(Testosterone) ELISA Kit EBT-ELK0654

Article Name	Simian Testo(Testosterone) ELISA Kit
Biozol Catalog Number	EBT-ELK0654
Supplier Catalog Number	ELK0654
Alternative Catalog Number	EBT-ELK0654-96, EBT-ELK0654-48, EBT-ELK0654-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Primate
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.11 ng/mL
Samples	serum, plasma, other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2.5h. Research Area: Endocrinology, Reproductive science, Hormone metabolism, .
Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Simian Testosterone. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Simian Testosterone. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Simian Testosterone in the samples is then determined by comparing the OD of the samples to the standard curve
