Product Datasheet

Hamster ADIPOQ(Adiponectin) ELISA Kit EBT-ELK0660

Article Name	Hamster ADIPOQ(Adiponectin) ELISA Kit
Biozol Catalog Number	EBT-ELK0660
Supplier Catalog Number	ELK0660
Alternative Catalog Number	EBT-ELK0660-96, EBT-ELK0660-48, EBT-ELK0660-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Hamster
Concentration	30 ng/mL
Range	0.47-30 ng/mL
Sensitivity	0.16 ng/mL
Samples	Serum, plasma and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway, Infection immunity, Cardiovascular biology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Hamster ADIPOQ. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Hamster ADIPOQ. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Hamster ADIPOQ, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Hamster ADIPOQ in the samples is then determined by comparing the OD of the samples to the standard curve
