## Product Datasheet

### **PREG(Pregnenolone) ELISA Kit EBT-ELK0691**

Article Name	PREG(Pregnenolone) ELISA Kit
Biozol Catalog Number	EBT-ELK0691
Supplier Catalog Number	ELK0691
Alternative Catalog Number	EBT-ELK0691-96, EBT-ELK0691-48, EBT-ELK0691-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	All
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.88 pg/mL
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2.5h. Research Area: Reproductive science. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with PREG. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to PREG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of PREG in the samples is then determined by comparing the OD of the samples to the standard curve
