Human 25-OH-D(25 Hydroxy Vitamin D) ELISA Kit EBT-ELK0694

| | |
|----------------------------|--|
| Article Name | Human 25-OH-D(25 Hydroxy Vitamin D) ELISA Kit |
| Biozol Catalog Number | EBT-ELK0694 |
| Supplier Catalog Number | ELK0694 |
| Alternative Catalog Number | EBT-ELK0694-96, EBT-ELK0694-48, EBT-ELK0694-96X5 |
| Manufacturer | ELK Biotechnology |
| Category | Kits/Assays |
| Species Reactivity | Human |
| Concentration | 200 ng/mL |
| Range | 3.13-200 ng/mL |
| Sensitivity | 1.45 ng/mL |
| Samples | serum, plasma and other biological fluids |

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2.5h. Research Area: Reproductive science, Genetic science, Nutrition metabolism, Bone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human 25-OH-D. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human 25-OH-D. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human 25-OH-D in the samples is then determined by comparing the OD of the samples to the standard curve
