Human IFIT-1(Interferon-induced protein with tetratricopeptide repeats 1) ELISA Kit EBT-ELK0759

Article Name	Human IFIT-1(Interferon-induced protein with tetratricopeptide repeats 1) ELISA Kit
Biozol Catalog Number	EBT-ELK0759
Supplier Catalog Number	ELK0759
Alternative Catalog Number	EBT-ELK0759-96, EBT-ELK0759-48, EBT-ELK0759-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.069 ng/mL
Samples	Tissue homogenates, cell lysates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine,.
Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human IFIT-1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human IFIT-1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human IFIT-1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human IFIT-1 in the samples is then determined by comparing the OD of the samples to the standard curve
