Product Datasheet

Human Acetyl-H3(Acetyl Histone H3) ELISA Kit EBT-ELK0808

Article Name	Human Acetyl-H3(Acetyl Histone H3) ELISA Kit
Biozol Catalog Number	EBT-ELK0808
Supplier Catalog Number	ELK0808
Alternative Catalog Number	EBT-ELK0808-96, EBT-ELK0808-48, EBT-ELK0808-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.16 ng/mL
UniProt	P68431
Samples	tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Epigenetics and Nuclear Signaling. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human Acetyl-H3. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human Acetyl-H3. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human Acetyl-H3, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human Acetyl-H3 in the samples is then determined by comparing the OD of the samples to the standard curve
