Product Datasheet

Pig FSH(Follicle Stimulating Hormone) ELISA Kit EBT-ELK0847

Article Name	Pig FSH(Follicle Stimulating Hormone) ELISA Kit
Biozol Catalog Number	EBT-ELK0847
Supplier Catalog Number	ELK0847
Alternative Catalog Number	EBT-ELK0847-96, EBT-ELK0847-48, EBT-ELK0847-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Porcine
Concentration	100 mIU/mL
Range	1.57-100 mIU/mL
Sensitivity	0.78 mIU/mL
Samples	Serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Endocrinology, Reproductive science, Genetic science, Hormone metabolism, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig FSH. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig FSH. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig FSH, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig FSH in the samples is then determined by comparing the OD of the samples to the standard curve
