Product Datasheet

Human HLA-B27(Leukocyte Antigen B27) Microsample ELISA Kit EBT-ELK0864MS

Article Name	Human HLA-B27(Leukocyte Antigen B27) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK0864MS
Supplier Catalog Number	ELK0864MS
Alternative Catalog Number	EBT-ELK0864MS-96, EBT-ELK0864MS-48, EBT-ELK0864MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	50 ng/mL
Range	0.78-50 ng/mL
Sensitivity	0.17 ng/mL
UniProt	O19193
Samples	serum, plasma, tissue homogenates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Immune molecule. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human HLA-B27. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human HLA-B27. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human HLA-B27, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human HLA-B27 in the samples is then determined by comparing the OD of the samples to the standard curve
