### EasyStep Human IL-2sRa/CD25(Soluble Interleukin-2 Receptor alpha chain) ELISA Kit EBT-ELK087ES

Article Name	EasyStep Human IL-2sRa/CD25(Soluble Interleukin-2 Receptor alpha chain) ELISA Kit
Biozol Catalog Number	EBT-ELK087ES
Supplier Catalog Number	ELK087ES
Alternative Catalog Number	EBT-ELK087ES-96, EBT-ELK087ES-48, EBT-ELK087ES-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	6000 pg/mL
Range	93.75-6000 pg/mL
Sensitivity	37.66 pg/mL
Samples	Serum, plasma

Application Notes

Assay Type: Sandwich. Assay length: 1.5h. Research Area: Signal transduction, CD & Adhesion molecule, Tumor immunity, Infection immunity, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human IL-2Ra/CD25, and the Human IL-2Ra/CD25 standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Human IL-2Ra/CD25. After TMB substrate solution is added, only those wells that contain Human IL-2Ra/CD25 and HRP-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human IL-2Ra/CD25 in the samples is then determined by comparing the OD of the samples to the standard curve
