Product Datasheet

Human CTN(Creatinine) ELISA Kit EBT-ELK0909

Article Name	Human CTN(Creatinine) ELISA Kit
Biozol Catalog Number	EBT-ELK0909
Supplier Catalog Number	ELK0909
Alternative Catalog Number	EBT-ELK0909-96, EBT-ELK0909-48, EBT-ELK0909-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	200 µg/mL
Range	3.13-200 µg/mL
Sensitivity	1.42 µg/mL
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Signal transduction, Metabolism. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human CTN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human CTN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human CTN in the samples is then determined by comparing the OD of the samples to the standard curve
