Product Datasheet

Human SMN1(Survival Of Motor Neuron 1, Centromeric) Microsample ELISA Kit EBT-ELK0922MS

Article Name	Human SMN1(Survival Of Motor Neuron 1, Centromeric) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK0922MS
Supplier Catalog Number	ELK0922MS
Alternative Catalog Number	EBT-ELK0922MS-96, EBT-ELK0922MS-48, EBT-ELK0922MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	5000 pg/mL
Range	78.13-5000 pg/mL
Sensitivity	34.4 pg/mL
UniProt	Q16637
Samples	Tissue homogenates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Neuro science,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human SMN1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human SMN1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human SMN1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human SMN1 in the samples is then determined by comparing the OD of the samples to the standard curve
