Product Datasheet

Zebrafish IL8(Interleukin 8) ELISA Kit EBT-ELK0987

Article Name	Zebrafish IL8(Interleukin 8) ELISA Kit
Biozol Catalog Number	EBT-ELK0987
Supplier Catalog Number	ELK0987
Alternative Catalog Number	EBT-ELK0987-96, EBT-ELK0987-48, EBT-ELK0987-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Zebrafish
Concentration	500 pg/mL
Range	7.82-500 pg/mL
Sensitivity	3 pg/mL
Samples	serum, plasma and biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Infection immunity, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Zebrafish IL8. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Zebrafish IL8. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Zebrafish IL8, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Zebrafish IL8 in the samples is then determined by comparing the OD of the samples to the standard curve
