Product Datasheet

EasyStep Human NPT(Neopterin) ELISA Kit EBT-ELK099ES

Article Name	EasyStep Human NPT(Neopterin) ELISA Kit
Biozol Catalog Number	EBT-ELK099ES
Supplier Catalog Number	ELK099ES
Alternative Catalog Number	EBT-ELK099ES-96, EBT-ELK099ES-48, EBT-ELK099ES-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	30 nmol/L
Range	0.469-30 nmol/L
Sensitivity	0.4 nmol/L
Samples	Serum, plasma

Application Notes

Assay Type: Competitive Inhibition. Assay length: 1.5h. Research Area: Cytokine, Infection immunity,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human NPT antigen, and the Human NPT standard plate wells that pre-coated using protein-related techniques are provided separately. Standard/Sample Diluent Buffer or samples are added to the appropriate microtiter plate wells ,then added a HRP-conjugated antibody specific to Human NPT to each microplate well and incubated . After TMB substrate solution is added, the enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human NPT in the samples is then determined by comparing the OD of the samples to the standard curve
