## Product Datasheet

### Rat NKB(Neurokinin B) ELISA Kit EBT-ELK10144

Article Name	Rat NKB(Neurokinin B) ELISA Kit
Biozol Catalog Number	EBT-ELK10144
Supplier Catalog Number	ELK10144
Alternative Catalog Number	EBT-ELK10144-96, EBT-ELK10144-48, EBT-ELK10144-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	4.12 pg/mL
UniProt	<a href="#">P08435</a>
Samples	Serum, plasma and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2.5h. Research Area: Neuro science, Hormone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Rat NKB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat NKB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat NKB in the samples is then determined by comparing the OD of the samples to the standard curve
