Product Datasheet

Mouse CREB(Cyclic AMP Response Element Binding Protein) ELISA Kit EBT-ELK10158

Article Name	Mouse CREB(Cyclic AMP Response Element Binding Protein) ELISA Kit
Biozol Catalog Number	EBT-ELK10158
Supplier Catalog Number	ELK10158
Alternative Catalog Number	EBT-ELK10158-96, EBT-ELK10158-48, EBT-ELK10158-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.049 ng/mL
UniProt	Q01147
Samples	Tissue homogenates and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Epigenetics and Nuclear Signaling, Immunology, Neuroscience. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse CREB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse CREB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse CREB, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse CREB in the samples is then determined by comparing the OD of the samples to the standard curve
