Product Datasheet

Human LTF(Lactoferrin) Microsample ELISA Kit EBT-ELK10188MS

Article Name	Human LTF(Lactoferrin) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK10188MS
Supplier Catalog Number	ELK10188MS
Alternative Catalog Number	EBT-ELK10188MS-96, EBT-ELK10188MS-48, EBT-ELK10188MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	5000 ng/mL
Range	78.13-5000 ng/mL
Sensitivity	21.3 ng/mL
UniProt	P02788
Samples	serum, plasma, tissue homogenates, cell lysates, breast milk, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Tumor immunity, Infection immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human LTF. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human LTF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human LTF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Human LTF in the samples is then determined by comparing the OD of the samples to the standard curve
