Product Datasheet

Human GROa/CXCL1(Growth Regulated Oncogene Alpha) ELISA Kit EBT-ELK1024

Article Name	Human GROa/CXCL1(Growth Regulated Oncogene Alpha) ELISA Kit
Biozol Catalog Number	EBT-ELK1024
Supplier Catalog Number	ELK1024
Alternative Catalog Number	EBT-ELK1024-96, EBT-ELK1024-48, EBT-ELK1024-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.8 pg/mL
UniProt	P09341
Samples	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Tumor immunity, Infection immunity, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human GROa/CXCL1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human GROa/CXCL1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human GROa/CXCL1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human GROa/CXCL1 in the samples is then determined by comparing the OD of the samples to the standard curve
