Product Datasheet

Rabbit IGF1(Insulin Like Growth Factor 1) ELISA Kit EBT-ELK10420

Article Name	Rabbit IGF1(Insulin Like Growth Factor 1) ELISA Kit
Biozol Catalog Number	EBT-ELK10420
Supplier Catalog Number	ELK10420
Alternative Catalog Number	EBT-ELK10420-96, EBT-ELK10420-48, EBT-ELK10420-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rabbit
Concentration	1000 ng/mL
Range	15.63-1000 ng/mL
Sensitivity	4.39 ng/mL
UniProt	Q95222
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Tumor immunity, Endocrinology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rabbit IGF1. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rabbit IGF1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rabbit IGF1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rabbit IGF1 in the samples is then determined by comparing the OD of the samples to the standard curve
