Product Datasheet

Pig ACE(Angiotensin I Converting Enzyme) ELISA Kit EBT-ELK10677

Article Name	Pig ACE(Angiotensin I Converting Enzyme) ELISA Kit
Biozol Catalog Number	EBT-ELK10677
Supplier Catalog Number	ELK10677
Alternative Catalog Number	EBT-ELK10677-96, EBT-ELK10677-96X5, EBT-ELK10677-48
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Porcine
Concentration	50 ng/mL
Range	0.79-50 ng/mL
Sensitivity	0.21 ng/mL
UniProt	F1RRW5
Samples	Serum, plasma and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Enzyme & Kinase, Cardiovascular biology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig ACE. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig ACE. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig ACE, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig ACE in the samples is then determined by comparing the OD of the samples to the standard curve
