Product Datasheet

Pig a1AGP(Alpha-1-Acid Glycoprotein) ELISA Kit EBT-ELK10721

Article Name	Pig a1AGP(Alpha-1-Acid Glycoprotein) ELISA Kit
Biozol Catalog Number	EBT-ELK10721
Supplier Catalog Number	ELK10721
Alternative Catalog Number	EBT-ELK10721-96, EBT-ELK10721-96X5, EBT-ELK10721-48
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Porcine
Concentration	400 ng/mL
Range	6.25-400 ng/mL
Sensitivity	2.87 ng/mL
Samples	Serum, plasma and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Infection immunity, Hepatology, Gastroenterology, Immunodeficiency,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig a1AGP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig a1AGP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig a1AGP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig a1AGP in the samples is then determined by comparing the OD of the samples to the standard curve
