Product Datasheet

Cattle OPN(Osteopontin) ELISA Kit EBT-ELK10775

Article Name	Cattle OPN(Osteopontin) ELISA Kit
Biozol Catalog Number	EBT-ELK10775
Supplier Catalog Number	ELK10775
Alternative Catalog Number	EBT-ELK10775-96, EBT-ELK10775-96X5, EBT-ELK10775-48
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Bovine
Concentration	200 ng/mL
Range	3.13-200 ng/mL
Sensitivity	1.14 ng/mL
UniProt	P31096
Samples	serum, plasma, tissue homogenates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Tumor immunity, Bone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cattle OPN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cattle OPN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cattle OPN, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Cattle OPN in the samples is then determined by comparing the OD of the samples to the standard curve
