Product Datasheet

Rat EMMPRIN(Extracellular Matrix Metalloproteinase Inducer) ELISA Kit EBT-ELK10790

Article Name	Rat EMMPRIN(Extracellular Matrix Metalloproteinase Inducer) ELISA Kit
Biozol Catalog Number	EBT-ELK10790
Supplier Catalog Number	ELK10790
Alternative Catalog Number	EBT-ELK10790-96, EBT-ELK10790-96X5, EBT-ELK10790-48
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	20 ng/mL
Range	0.32-20 ng/mL
Sensitivity	0.14 ng/mL
Samples	Serum, plasma, lung lavage fluid and other biological fluids.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: CD & Adhesion molecule, Tumor immunity, Infection immunity, Reproductive science,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat EMMPRIN. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat EMMPRIN. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat EMMPRIN, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat EMMPRIN in the samples is then determined by comparing the OD of the samples to the standard curve
