Cattle LBP(Lipopolysaccharide Binding Protein) ELISA Kit EBT-ELK10855

Article Name	Cattle LBP(Lipopolysaccharide Binding Protein) ELISA Kit
Biozol Catalog Number	EBT-ELK10855
Supplier Catalog Number	ELK10855
Alternative Catalog Number	EBT-ELK10855-96, EBT-ELK10855-96X5, EBT-ELK10855-48
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Bovine
Concentration	50 µg/mL
Range	0.78-50 µg/mL
Sensitivity	0.29 µg/mL
UniProt	Q2TBI0
Samples	serum, plasma and other biological fluids

Application Notes	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Infection immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cattle LBP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cattle LBP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cattle LBP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Cattle LBP in the samples is then determined by comparing the OD of the samples to the standard curve</p>
