## Product Datasheet

### Rat LL-37(Antibacterial Protein LL-37) Microsample ELISA Kit EBT-ELK10870MS

Article Name	Rat LL-37(Antibacterial Protein LL-37) Microsample ELISA Kit
Biozol Catalog Number	EBT-ELK10870MS
Supplier Catalog Number	ELK10870MS
Alternative Catalog Number	EBT-ELK10870MS-96, EBT-ELK10870MS-48, EBT-ELK10870MS-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	50 ng/mL
Range	0.79-50 ng/mL
Sensitivity	0.24 ng/mL
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Infection immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rat LL-37. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat LL-37. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rat LL-37, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat LL-37 in the samples is then determined by comparing the OD of the samples to the standard curve
