## Product Datasheet

### Rat F-Testo(Free Testosterone) ELISA Kit EBT-ELK10934

Article Name	Rat F-Testo(Free Testosterone) ELISA Kit
Biozol Catalog Number	EBT-ELK10934
Supplier Catalog Number	ELK10934
Alternative Catalog Number	EBT-ELK10934-96, EBT-ELK10934-96X5, EBT-ELK10934-48
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rat
Concentration	2000 pg/mL
Range	31.25-2000 pg/mL
Sensitivity	16.3 pg/mL
Samples	serum, plasma, other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Endocrinology, Reproductive science, Hormone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Rat F-Testo. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rat F-Testo. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rat F-Testo in the samples is then determined by comparing the OD of the samples to the standard curve
