## Product Datasheet

### Simian SAA(Serum Amyloid A) ELISA Kit EBT-ELK10965

Article Name	Simian SAA(Serum Amyloid A) ELISA Kit
Biozol Catalog Number	EBT-ELK10965
Supplier Catalog Number	ELK10965
Alternative Catalog Number	EBT-ELK10965-96, EBT-ELK10965-96X5, EBT-ELK10965-48
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Primate
Concentration	200 ng/mL
Range	3.13-200 ng/mL
Sensitivity	0.273 ng/mL
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Infection immunity, Kidney biomarker, Hepatology, Urology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Simian SAA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Simian SAA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Simian SAA, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Simian SAA in the samples is then determined by comparing the OD of the samples to the standard curve
