Product Datasheet

Pig SAA(Serum Amyloid A) ELISA Kit EBT-ELK10982

Article Name	Pig SAA(Serum Amyloid A) ELISA Kit
Biozol Catalog Number	EBT-ELK10982
Supplier Catalog Number	ELK10982
Alternative Catalog Number	EBT-ELK10982-96, EBT-ELK10982-96X5, EBT-ELK10982-48
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Porcine
Concentration	200 ng/mL
Range	3.13-200 ng/mL
Sensitivity	0.273 ng/mL
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Infection immunity, Kidney biomarker, Hepatology, Urology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig SAA. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig SAA. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig SAA, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig SAA in the samples is then determined by comparing the OD of the samples to the standard curve
