## Product Datasheet

### **Sheep sST2(Soluble Suppression Of Tumorigenicity 2) ELISA Kit EBT-ELK11048**

Article Name	Sheep sST2(Soluble Suppression Of Tumorigenicity 2) ELISA Kit
Biozol Catalog Number	EBT-ELK11048
Supplier Catalog Number	ELK11048
Alternative Catalog Number	EBT-ELK11048-96, EBT-ELK11048-48, EBT-ELK11048-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Sheep
Concentration	150 ng/mL
Range	2.35-150 ng/mL
Sensitivity	0.98 ng/mL
Samples	serum, plasma, tissue homogenates, cell lysates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: CD & Adhesion molecule. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Sheep sST2. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Sheep sST2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Sheep sST2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Sheep sST2 in the samples is then determined by comparing the OD of the samples to the standard curve
