Mouse Lp-a(Lipoprotein a) ELISA Kit EBT-ELK11050

Article Name	Mouse Lp-a(Lipoprotein a) ELISA Kit
Biozol Catalog Number	EBT-ELK11050
Supplier Catalog Number	ELK11050
Alternative Catalog Number	EBT-ELK11050-96, EBT-ELK11050-48, EBT-ELK11050-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	20 µg/mL
Range	0.312-20 µg/mL
Sensitivity	0.128 µg/mL
Samples	Serum, plasma and other biological fluids.

Application Notes	<p>Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway,Cardiovascular biology,Hepatology,Gastroenterology,Nutrition metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse Lp-a. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse Lp-a. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse Lp-a, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse Lp-a in the samples is then determined by comparing the OD of the samples to the standard curve</p>
