Mouse a1M(Alpha-1-Microglobulin/Bikunin Precursor) ELISA Kit EBT-ELK11135

Article Name	Mouse a1M(Alpha-1-Microglobulin/Bikunin Precursor) ELISA Kit
Biozol Catalog Number	EBT-ELK11135
Supplier Catalog Number	ELK11135
Alternative Catalog Number	EBT-ELK11135-96, EBT-ELK11135-48, EBT-ELK11135-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	20 µg/mL
Range	0.312-20 µg/mL
Sensitivity	0.129 µg/mL
UniProt	Q07456
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Infection immunity, Immune molecule, Kidney biomarker, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse a1M. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse a1M. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse a1M, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse a1M in the samples is then determined by comparing the OD of the samples to the standard curve
