Product Datasheet

Pig APOE(Apolipoprotein E) ELISA Kit EBT-ELK11159

Article Name	Pig APOE(Apolipoprotein E) ELISA Kit
Biozol Catalog Number	EBT-ELK11159
Supplier Catalog Number	ELK11159
Alternative Catalog Number	EBT-ELK11159-96, EBT-ELK11159-48, EBT-ELK11159-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Porcine
Concentration	5000 ng/mL
Range	78.13-5000 ng/mL
Sensitivity	46.7 ng/mL
UniProt	P18650
Samples	Serum, plasma and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Metabolic pathway, Cardiovascular biology, Hepatology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Pig APOE. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig APOE. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Pig APOE, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig APOE in the samples is then determined by comparing the OD of the samples to the standard curve
