Product Datasheet

Mouse HRG(Histidine Rich Glycoprotein) ELISA Kit EBT-ELK11161

Article Name	Mouse HRG(Histidine Rich Glycoprotein) ELISA Kit
Biozol Catalog Number	EBT-ELK11161
Supplier Catalog Number	ELK11161
Alternative Catalog Number	EBT-ELK11161-96, EBT-ELK11161-48, EBT-ELK11161-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	20 µg/mL
Range	0.312-20 µg/mL
Sensitivity	0.129 µg/mL
UniProt	Q9ESB3
Samples	Plasma.

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Hematology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse HRG. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse HRG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse HRG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse HRG in the samples is then determined by comparing the OD of the samples to the standard curve
