Product Datasheet

Dog FGF23(Fibroblast Growth Factor 23) ELISA Kit EBT-ELK11216

Article Name	Dog FGF23(Fibroblast Growth Factor 23) ELISA Kit
Biozol Catalog Number	EBT-ELK11216
Supplier Catalog Number	ELK11216
Alternative Catalog Number	EBT-ELK11216-96, EBT-ELK11216-48, EBT-ELK11216-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Canine
Concentration	1000 pg/mL
Range	15.63-1000 pg/mL
Sensitivity	5.7 pg/mL
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Tumor immunity, Infection immunity, Genetic science, . Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog FGF23. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog FGF23. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog FGF23, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Dog FGF23 in the samples is then determined by comparing the OD of the samples to the standard curve
