### Cattle ACTb(Actin Beta) ELISA Kit EBT-ELK11229

Article Name	Cattle ACTb(Actin Beta) ELISA Kit
Biozol Catalog Number	EBT-ELK11229
Supplier Catalog Number	ELK11229
Alternative Catalog Number	EBT-ELK11229-96, EBT-ELK11229-48, EBT-ELK11229-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Bovine
Concentration	100 ng/mL
Range	1.57-100 ng/mL
Sensitivity	0.57 ng/mL
UniProt	<a href="#">P60712</a>
Samples	tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction, Developmental science, Bone metabolism,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cattle ACTb. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cattle ACTb. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cattle ACTb, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Cattle ACTb in the samples is then determined by comparing the OD of the samples to the standard curve
