## Product Datasheet

### Rabbit TNFa(Tumor Necrosis Factor Alpha) ELISA Kit EBT-ELK1164

Article Name	Rabbit TNFa(Tumor Necrosis Factor Alpha) ELISA Kit
Biozol Catalog Number	EBT-ELK1164
Supplier Catalog Number	ELK1164
Alternative Catalog Number	EBT-ELK1164-96, EBT-ELK1164-48, EBT-ELK1164-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Rabbit
Concentration	200 pg/mL
Range	3.13-200 pg/mL
Sensitivity	1.22 pg/mL
UniProt	<a href="#">P04924</a>
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Tumor immunity, Infection immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rabbit TNF $\alpha$ . Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rabbit TNF $\alpha$ . Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rabbit TNF $\alpha$ , biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm  $\pm$  10nm. The concentration of Rabbit TNF $\alpha$  in the samples is then determined by comparing the OD of the samples to the standard curve
