Product Datasheet

Guinea pig TNFa(Tumor Necrosis Factor Alpha) ELISA Kit EBT-ELK1215

Article Name	Guinea pig TNFa(Tumor Necrosis Factor Alpha) ELISA Kit
Biozol Catalog Number	EBT-ELK1215
Supplier Catalog Number	ELK1215
Alternative Catalog Number	EBT-ELK1215-96, EBT-ELK1215-48, EBT-ELK1215-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Guinea pig
Concentration	500 pg/mL
Range	7.82-500 pg/mL
Sensitivity	2.9 pg/mL
UniProt	P51435
Samples	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine, Tumor immunity, Infection immunity,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Guinea pig TNF α . Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Guinea pig TNF α . Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Guinea pig TNF α , biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Guinea pig TNF α in the samples is then determined by comparing the OD of the samples to the standard curve
