Guinea pig ALB(Albumin) ELISA Kit EBT-ELK1381

| | |
|----------------------------|--|
| Article Name | Guinea pig ALB(Albumin) ELISA Kit |
| Biozol Catalog Number | EBT-ELK1381 |
| Supplier Catalog Number | ELK1381 |
| Alternative Catalog Number | EBT-ELK1381-96, EBT-ELK1381-48, EBT-ELK1381-96X5 |
| Manufacturer | ELK Biotechnology |
| Category | Kits/Assays |
| Species Reactivity | Guinea pig |
| Concentration | 100 µg/mL |
| Range | 1.57-100 µg/mL |
| Sensitivity | 0.42 µg/mL |
| Samples | Serum, plasma and other biological fluids |

| | |
|-------------------|--|
| Application Notes | <p>Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Tumor immunity, Infection immunity, Hematology, Hepatology, Nutrition metabolism, . Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Guinea pig ALB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Guinea pig ALB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Guinea pig ALB in the samples is then determined by comparing the OD of the samples to the standard curve</p> |
