Product Datasheet

Mouse PROCR(Protein C Receptor, Endothelial) ELISA Kit EBT-ELK1412

Article Name	Mouse PROCR(Protein C Receptor, Endothelial) ELISA Kit
Biozol Catalog Number	EBT-ELK1412
Supplier Catalog Number	ELK1412
Alternative Catalog Number	EBT-ELK1412-96, EBT-ELK1412-48, EBT-ELK1412-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	5000 pg/mL
Range	78.13-5000 pg/mL
Sensitivity	35 pg/mL
UniProt	Q64695
Samples	Serum, plasma, tissue homogenates and other biological fluids

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction,CD & Adhesion molecule,Hematology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse PROCR. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse PROCR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse PROCR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse PROCR in the samples is then determined by comparing the OD of the samples to the standard curve
