Product Datasheet

Mouse F10(Coagulation Factor X) ELISA Kit EBT-ELK1559

Article Name	Mouse F10(Coagulation Factor X) ELISA Kit
Biozol Catalog Number	EBT-ELK1559
Supplier Catalog Number	ELK1559
Alternative Catalog Number	EBT-ELK1559-96, EBT-ELK1559-48, EBT-ELK1559-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Mouse
Concentration	10 ng/mL
Range	0.16-10 ng/mL
Sensitivity	0.07 ng/mL
UniProt	O88947
Samples	plasma

Application Notes

Assay Type: Sandwich. Assay length: 3.5h. Research Area: Signal transduction,Hematology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse F10. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse F10. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse F10, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse F10 in the samples is then determined by comparing the OD of the samples to the standard curve
