Product Datasheet

Human GIP(Gastric Inhibitory Polypeptide) ELISA Kit EBT-ELK1580

Article Name	Human GIP(Gastric Inhibitory Polypeptide) ELISA Kit
Biozol Catalog Number	EBT-ELK1580
Supplier Catalog Number	ELK1580
Alternative Catalog Number	EBT-ELK1580-96, EBT-ELK1580-48, EBT-ELK1580-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	5000 pg/mL
Range	78.13-5000 pg/mL
Sensitivity	23.5 pg/mL
UniProt	P09681
Samples	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Endocrinology, Gastroenterology, Hormone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human GIP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human GIP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human GIP in the samples is then determined by comparing the OD of the samples to the standard curve
