Mouse NMB(Neuromedin B) ELISA Kit EBT-ELK1630

| | |
|----------------------------|--------------------------------------------------|
| Article Name | Mouse NMB(Neuromedin B) ELISA Kit |
| Biozol Catalog Number | EBT-ELK1630 |
| Supplier Catalog Number | ELK1630 |
| Alternative Catalog Number | EBT-ELK1630-96, EBT-ELK1630-48, EBT-ELK1630-96X5 |
| Manufacturer | ELK Biotechnology |
| Category | Kits/Assays |
| Species Reactivity | Mouse |
| Concentration | 1000 pg/mL |
| Range | 15.63-1000 pg/mL |
| Sensitivity | 4.87 pg/mL |
| UniProt | Q9CR53 |
| Samples | Serum, plasma and other biological fluids |

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Signal transduction, Endocrinology, Neuroscience, Gastroenterology, Hormone metabolism,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Mouse NMB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse NMB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Mouse NMB in the samples is then determined by comparing the OD of the samples to the standard curve
